

Academy of Leaders Secondary School

أكاديمية القادة للتعليم الأساسي

We are an institute of high standards, based on the British English Curriculum. We believe in educating the mind and the soul to raise children of intelligence and respect.

At AOL Secondary, our primary goal is to provide children with the right foundation for learning and living. Education is a learning process that is achieved through guidance, exploration, play, and effort. All of which are encouraged in our curriculum.

Children are blessings bestowed on us by Allah, and it is our duty to do our best to guide them well. At AOL we take this responsibility seriously. We believe that a kind, polite, and obedient child has a higher regard for education and a better chance of success.

At Academy of Leaders Secondary, our priorities are respect and achievement. Therefore, rules are implemented, followed, and enforced.
